Modern Slavery Policy

Purpose

Conducting sustainable and ethical business is a core element of Better Collective's identity, and we oppose all forms of corruption and unethical business conducts. Better Collective is particularly strong supporters of the international efforts to abolish all forms of modern slavery. Therefore, Better Collective support the UK Modern Slavery Act and its objectives to eradicate forced labour and human trafficking.

Scope

Better Collective's Modern Slavery Policy 2021 was written in accordance with the requirements under Section 54(1) of the UK Modern Slavery Act 2015 and is applicable to the Better Collective Group.

The policy outlines the Group's practices and measures taken to prevent modern slavery occurring within our own operations and extended supply chain.

The majority of our supply chain relates to skilled sectors such as IT, tech, and marketing.

Policies and Procedures

Better Collective has implemented a number of policies which identify and assess risk areas and aim to minimise and mitigate the risk of modern slavery in our supply chain. These count:

- We include a general compliance with laws provisions when entering into contracts
- We stay committed to only collaborating with licensed operators
- A Whistleblower Policy which encourages employees to report concerns including any related to modern slavery/trafficking and forced child labour.
- A Human Rights Policy

Due Diligence

In order to mitigate against the risk of modern slavery we seek to ensure that our contracts require partners to comply with applicable laws and regulations. Furthermore, we have decided to only operate in regulated and controlled markets which also limits the risk of modern slavery and human trafficking.

A Better Future

We will continuously seek to enhance our procedures to help identify, prevent and mitigate any rise of modern slavery or human trafficking in relation to our new and existing business activities.
